RECEIVED

FEB 07 2000

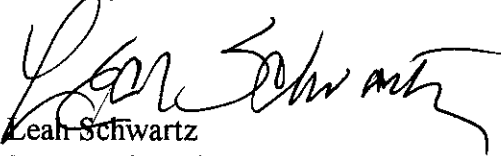

SUBJECT: Transporting of nuclear waste through populated areas

1 I protest the plan to transport nuclear waste through the heavily populated St. Louis area.

I live less than a mile from the rail corridor that would be used and two of the interstate highways on the east/west or northeast/southwest axis—likely paths for the transport by truck of the nuclear waste.

I protest the potential risk at which you are willing to place me and the other couple million residents of this area.

Sincerely,

Leah Schwartz
